Externship Information

Please provide an overview of the externship including a brief description of the externship objectives, agency, average number and type of animals cared for, description of facility, and responsibilities and experiences of the extern.

We are a non-for profit open admission shelter. Intake is around 2000 cats and 500 dogs per year. On any given day, we care directly for 60 dogs and 300 + cats. This does not include our foster network. Our spay clinic sterilizes and performs other procedures on shelter animals. It also is involved in community TNR and reduced cost S/N to the public.

Goals:

To explore all aspects of shelter medicine- including intake, medical workups and treatment, infectious disease management, behavior problems, population medicine.

Observe, assist and perform sterilizations of shelter and TNR animals.

Become more comfortable with all steps of anesthesia induction, maintenance, and recovery.

Become familiar with surgical complications and how to properly address them.

Become familiar with local TNR efforts.

Learn about the importance of spay and neuter, and discuss how to sell this message to the public.
